

Environmental Security Technology Certification Program (ESTCP)

RESOURCE CONSERVATION AND RESILIENCY

The Environmental Security Technology Certification Program (ESTCP), Resource Conservation and Resiliency (RC) program supports demonstration and validation of the promising innovative environmental technologies that target DoD's most urgent Resource Conservation and Resiliency needs. Technologies selected are projected to provide a return on the investment through cost savings and improved efficiencies. Resource conservation and resiliency demonstration and validation efforts should relate to technologies that address natural resources, emissions, or resilient infrastructure, as follows:

- Natural resource efforts should focus on ecological systems, aquatic and marine resources, and terrestrial ecology and species management.
- Emission efforts should focus on the tools, technologies, and methodologies for the active management of dust, fire, and other emissions from training, testing, and other DoD activities to include both wild fires and prescribed burns.
- Resiliency demonstrations and validation efforts should focus advanced tools, technologies, and methodologies for the continuum of infrastructure, both natural and built required by the DoD for the maintenance of capabilities, training, and testing of new systems.

SPECIAL INTEREST TOPIC

In FY20, ESTCP has issued two topic areas for the Resource Conservation and Resiliency program area through a Broad Agency Announcement (BAA) to the private sector as well as one topic area of general interest:

- DoD Infrastructure Resiliency Arctic Engineering Design Tool
- Advanced Brown Tree Snake Control Tools
- Innovative Technology Transfer Approaches

DoD investigators are encouraged to submit proposals through the DoD submittal process that respond to these BAA topic areas. These topics represent areas of particular interest to ESTCP.

POINT OF CONTACT

Kurt Preston, Ph.D.

Program Manager for Resource Conservation and Resiliency (RC)
Environmental Security Technology Certification Program (ESTCP)
4800 Mark Center Drive, Suite 16F16, Alexandria, VA 22350-3605
Telephone: 571-372-6401
