MEMORANDUM FOR SERDP EXECUTIVE WORKING GROUP MEMBERS

SUBJECT: Call for Fiscal Year 2023 SERDP New Start Proposals

The Strategic Environmental Research and Development Program (SERDP) has issued two requests for proposals from federal organizations for funding in Fiscal Year 2023. The SERDP core solicitation requests pre-proposals by January 6, 2022 and SERDP Exploratory Development (SEED) Solicitation requests complete proposals by March 10, 2022. I would greatly appreciate your assistance in distributing this information as widely as possible throughout your organization.

The solicitation announcements and instructions are posted on the SERDP website at [www.serdp-estcp.org/Funding-Opportunities/SERDP-Solicitations](http://www.serdp-estcp.org/Funding-Opportunities/SERDP-Solicitations). All federal organizations responding to the SERDP core solicitation must submit a pre-proposal directly to SERDP prior to a complete proposal. There are no limits on the number of proposals an organization can submit to either solicitation. Proposals must be submitted into the SERDP and ESTCP Management System (SEMS) (<https://sems2.serdp-estcp.org>) prior to the deadline to be considered.

If you have any questions or need additional information, please contact me or the appropriate SERDP Program Manager.

Sincerely,

A handwritten signature in black ink, appearing to read "Herbert H. Nelson". The signature is fluid and cursive, with a long horizontal stroke at the end.

Herbert H. Nelson, Ph.D.  
Executive Director  
Strategic Environmental Research  
and Development Program
